

UPPALA SREENU

AI & ML Student

Mobile: +91 7842804073 | sreenuuppala73@gmail.com | LinkedIn:  LinkedIn: linkedin.com/in/sreenu-uppala-56b64735

PROFESSIONAL SUMMARY

Motivated and dedicated Computer Science student with a strong foundation in Python, SQL, and backend development, eager to contribute to innovative projects, apply my problem-solving abilities, and grow as a technology professional.

SKILLS

TECHNICAL SKILLS

- Programming Languages: Python, SQL
- Backend Development: FastAPI, REST APIs
- Databases: MySQL
- Version Control: Git, GitHub

SOFT SKILLS

- ProblemSolving
- Communication
- TeamWork

EDUCATION

- **Mahendra Institute of Technology | 2023 – 2027**
B.E. Computer Science and Engineering (AI & ML) | CGPA: 7.2
- **Sree Chaitanya Junior College | 2021 – 2023**
Intermediate | Percentage: 81%
- **Sree Sai Vidhyanikethan High School | 2020 – 2021**
Matriculation | Percentage: 95%

PROJECTS

Smart Queue Management System | *FastAPI, Python, SQL, Git*

- Develop a system to manage customer queues efficiently and reduce waiting times through a real-time backend service
- Designed and developed the backend APIs, handled business logic, implemented validation and managed database interactions.
- Built a scalable, optimized queue management solution with improved response handling and streamlined operations

AI Spam Detection Project | *Python, NLP, Scikit-Learn, Git*

- Build a machine learning pipeline and modular application to accurately classify incoming text messages as spam or non-spam
- Designed the system application architecture, developed data processing pipelines using NLP techniques and trained evaluated, and debugged the classification models
- Resolved data-drift bugs during testing and optimized Naive Bayes and Logistic Regression models to achieve an accuracy score of 96%

CERTIFICATIONS & ACHIEVEMENTS

Python Certification – Naresh I Technologies (Validating proficiency in Core Python, OOPS, and Exception Handling)

Achievement: Solved 130+ algorithmic problems, demonstrating strong logical thinking, optimization skills, and mastery of core Python data structures
